

Position Available: Millwork Design Engineer: Autocad-Microvellum

Full time on site employment in Rochester NY, not remote or contract. 8/2026

Minimum Qualifications:

- Able to read and understand architectural drawings as basis for shop drawings
- Proficiency with AutoCAD
- Drafting: preparing detailed, organized, properly scaled and annotated drawings
- Some knowledge of construction industry

Preferred Qualifications:

- Experience with wood shop software : AutoCad-Microvellum, CabinetVision, etc
- Experience in a commercial manufacturing environment, woodworking preferred
- Experience with MS Excel software
- Shop fabrication experience, CNC ops is a plus
- Purchasing: issuing POs and interacting with vendors

Personal Attributes:

- Good problem solving skills
- Ability to envision complex assemblies in components
- Inquisitive by nature, Detail oriented, Work independently
- Positive can-do attitude, Strong work ethic

Position Responsibilities include but are not limited to:

- Review job order and specifications such as: architectural drawings and specs, time schedule, field measurements, materials, appliance verification, plumbing & electrical, etc
- Create (actually *engineer*) shop drawings for client approval.
- Prepare submittal packages including shop drawings, product data, finish samples, etc.
- Implement changes to shop drawings for field dimensions, change orders, etc
- Purchasing job specific materials.
- Once shop drawings are approved, release detailed fabrication package to shop supervisor.

If you are sharp and motivated we will provide the training to get you up to speed

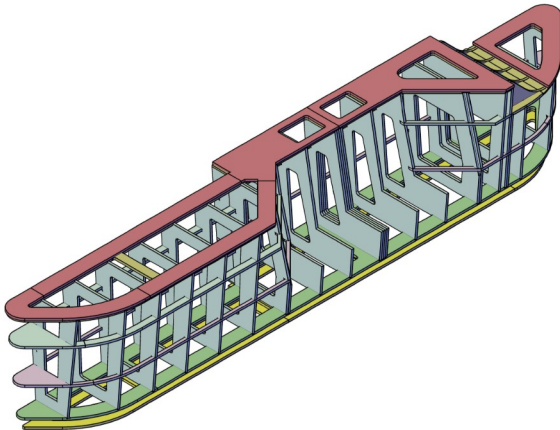

Shift: Monday thru Friday 7-3:30pm (occasional overtime)

Compensation:

Salary dependent on experience. Our comprehensive benefits include, 401k plan & paid vacation after 12 months, paid holidays and health insurance after 90 days of employment.
