From The Corner

CELEBRATING 1 YEAR ON THE CORNER!

This month marks one year since we opened our doors on Clifford Ave, and what a year it has been. What was once an aging laundromat and barber shop has been completely transformed into one of the Roc's first legal cannabis dispensaries. Restoring and revitalizing this historic corner of the neighborhood was about more than opening a business, it was about investing in a community we believe in and helping shape the future of legal cannabis in Rochester. Over the past year, we've had the privilege of serving thousands of customers from across the city as one of the first

dispensaries situated directly within a residential neighborhood, we've become a true neighborhood shop, welcoming everyone from curious first-timers to lifelong cannabis enthusiasts. Along the way, we've watched old perceptions fade as legal cannabis becomes a normal, positive part of everyday life in NY.

The industry itself has continued to reach impressive milestones. New York's legal cannabis market has now surpassed billions of dollars in sales, generating tax revenue that is reinvested back into the...

What's New on the Shelf?

Smoothie Bar's Blend is bringing big flavor to our vape lineup with two new 2g Liquid Live Diamonds all-in-one devices. Choose from Pink Kush x L.A. Wedding Pop for a creamy twist on classic gas, or Papaya x Lemonade for a tropical citrus blend that tastes like summer. Packed with strain-forward flavor and long-lasting performance, these AIOs are ready to blend into your summer!

From The Corner Continued

communities and municipalities where those sales occur. Every purchase made through the legal market supports regulated businesses, local jobs, public programs, and a safer, more transparent cannabis industry for everyone.

Our shelves have grown right alongside the market. We've been proud to carry some of the most respected names in cannabis, including Good Green, MFNY, and RYTHM, while also making space for emerging New York brands and local operators working to establish themselves in this new industry. Supporting both established producers

and smaller homegrown companies has allowed us to offer a diverse menu while helping elevate the broader cannabis community.

Most importantly, this first year has been defined by the people. Our team has earned countless compliments and glowing reviews for their knowledge, patience, and genuine care for customers, growing in their cannabis expertise and as professionals within a burgeoning industry, working together to solve problems and keep improving our customer's experience, making our first year unforgettable!

Corner Collab: Comedy@The Carlson

Cannabis Corner has officially linked up with Comedy @ the Carlson for two successful "Corner at the Carlson" elevated VIP experiences, bringing together laughs, good vibes, and community before the show.

Guests enjoyed private lounge access featuring food, drink vouchers, raffle entries, and exclusive goodie bags before being escorted right into the comedy club for the night's performance. Our team had an awesome time hanging with the comedians and everyone who came out to elevate the evening with us, and we're already looking forward to hosting another one soon!

Industry News

State of Cannabis: Schedule III Looms

The cannabis industry continues waiting on what could become one of the biggest federal shifts in marijuana history: the potential move of cannabis from Schedule I to Schedule III under federal law. While no final decision has been made yet, the conversation has already sparked momentum around expanded research, financial reform, and reduced tax burdens for legal cannabis businesses. For an industry that has operated in legal gray areas for decades, the possibility of rescheduling feels closer than ever. Here in New York, the legal market keeps growing as more dispensaries open, local brands expand, and consumers become increasingly educated about flower, terpenes, and quality. A federal shift could further legitimize cannabis nationwide and help stabilize the industry for years to come.

The Word on The Corner

5.0 ★★★★★

"I had never been to this place before this 4/20. I went in with my dad and was impressed with the selection they had. The owner was a super nice guy, when I was asking about purchasing a downstem and didn't know the size he went in the back and brought one to me and totally hooked me up 🙌 These are good people and I will be recommending them to everyone for the foreseeable future. Thanks so much guys!"
