2 LEGENDS JUST HIT THE SHELF: SHERBINKSI & MARLEY

This month, Cannabis Corner is proud to welcome two iconic names to New York's legal market: Sherbinski's **Voice of the Plant** and **Lion Order** by Rohan Marley. More than celebrity brands, these collections represent decades of influence on cannabis culture. Mario "Sherbinski" Guzman helped revolutionize modern flower through legendary genetics like Gelato and Sunset Sherbert, while Rohan Marley continues his family's legacy of celebrating cannabis as a symbol of wellness, creativity, and community.

Both brands are rooted in authenticity, exceptional genetics, and a deep respect for the plant. Whether you're chasing terpene-rich flower from one of the world's most influential breeders or experiencing the cultural heritage behind the Marley name, these aren't just new additions to our shelves—they're a chance to experience two legends who have helped shape cannabis as we know it today.
