“Badfish” by Sublime or “Come Together” by The Beatles for that moody, bass-driven pulse that lines up with the strain’s heavier, gassy intensity.

It hits quickly with an energizing, heady buzz that's made it a longtime favorite for daytime use. Loud, unmistakable, and timeless—this is the strain that defined a generation.

TERPS

Caryophyllene → peppery, gassy bite

Limonene → citrus sharpness, mood lift

Myrcene → earthy base, slight body balance
