HIGH-PERFORMANCE WINDOW TECHNOLOGY

GreenView proprietary **vertex3** high-performance glass technology is engineered to provide remarkable thermal efficiency, crystalline glass clarity and superior air infiltration protection.

Thermal efficiency **29%**

OUTPERFORMS INDUSTRY STANDARDS BY UP TO

ēvolv

Proprietary **ēvolv** Glass Technology provides triple-pane thermal efficiency in a double-pane window by reflecting escaping heat back into the room, increasing thermal efficiency by up to 29% above industry average,* which adds up to substantial energy savings.

*Average measured from Energy Star® data of three other window manufacturers.

Glass clarity **99%**

REDUCES WATER SPOTS BY UP TO

ec TECH

Patented **ECTECH** Technology produces cleaner, clearer windows. The titanium dioxide coating absorbs the sun's UV rays, loosening dirt particles and allowing water to rinse them away naturally. Water spots are reduced by 99%, creating crystalline glass clarity.

Air infiltration protection **24%**

CUTS DRAFTS BY UP TO

KP
BUILDINGS
PRODUCTS
AIR SEALING
TECHNOLOGY

KP® Air Sealing Technology offers unmatched air infiltration protection, cutting drafts by up to 24% with a mold resistant seal and guaranteed for life.

Cutting-edge features.

Every GreenView window lets you capture your style, bring the light in and keep the elements out. That's simply what we do. All of our windows are made with care and dedication to excellence. You will always get the best window we can make because you deserve nothing less.

ENERGY STAR®

GreenView Windows meet or exceed Energy Star® most severe standards. For more details on our energy performance data, please visit us online at: greenviewwindows.com

INTERCEPT® ULTRA WARM-EDGE SPACER SYSTEM

The best combination of durability, rigidity and thermal performance, resulting in longer-lasting and more energy-efficient windows

ēvolv

Double-pane glass with triple-pane performance. Significantly exceeds Energy Star® standards to reduce energy costs.

ECTECH

Patented **ECTECH** Technology reduces water spots by 99%, creating a crystalline glass clarity

PREMIUM RAW MATERIALS

Vinyl color is formulated throughout to ensure that the lustrous finish will never chip, peel, crack or warp

CONSTANT FORCE BALANCE SYSTEM

For smooth and easy operation (hung windows)

TRUTH™ ENCORE FOLDING HANDLE

Won't interfere with your window covering and requires 33% less effort to operate (casement & awning windows)

FULLY WELDED SASH & FRAME

Fully welded sash and frame for a stronger and more durable window

KP AIR SEALING TECHNOLOGY

Reduces the risk of air or water infiltration and provides a mold resistant seal

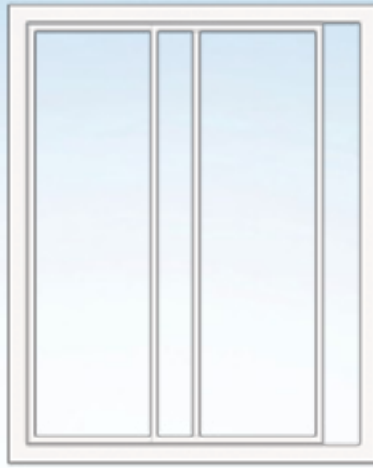

Bring light into your world.

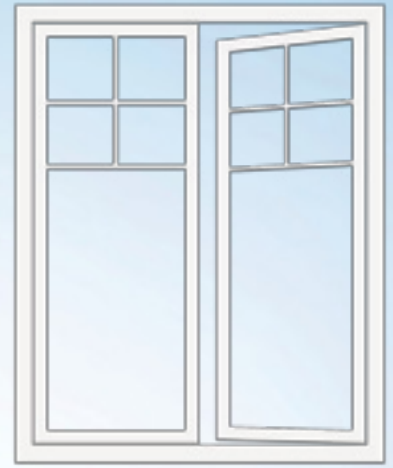

GreenView Windows add space and light to any room.
Available in a variety of designs and configurations so you can create your own beautiful opening.

Glass Engineered for Comfort

GLASS OPTION	ABOUT GLASS OPTIONS	FEATURES
SOL-R® GAIN 180:	Sol-R® Gain 180 is the best glass option when you would like to capture the sun's warming rays in the winter. It is very well suited to our northern climate.	<ul style="list-style-type: none"> • 1 layer of Low-E Coating • Good insulation performance • Maximum solar gain • Blocks 71% of damaging UV rays • Light transmittance: 79%
SOL-R® SHIELD plus 366:	Sol-R® Shield plus 366 provides the best insulation performance with only moderate solar gain – in other words, this is the best glass option when you would like to reflect the sun's heat from entering the home. This package prevents the sun from heating the home in the summer and reflects the home's heat back into the room in the winter.	<ul style="list-style-type: none"> • 3 Layers of Low-E coating • Better insulation performance • Moderate solar gain • Blocks 95% of damaging UV rays • Light transmittance: 65% • High Level of year round comfort
Vertex 3 High Performance Glass:	Vertex 3 High Performance Glass Technology offers the Best Overall Balance between Insulation Performance, Solar Heat and Light Transmission. Includes EC Tech Technology.	<ul style="list-style-type: none"> • Triple Pane Performance in a dual pane window. • Energy Star Compliant in a dual pane window. • Light Transmittance: 78% • Blocks 80% of damaging UV rays • Cleaner, clearer windows. • Reduces water spots by 99%

All our High Performance Glass Packages are available in triple glazed for even better performance.

Our Windows and Patio Doors meet the Energy Star 2020 standards.

Options & Hardware

Using our state of the art paint process:

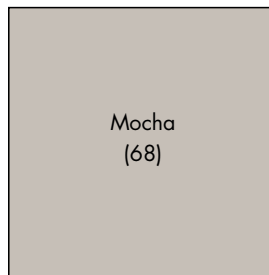

Chroma VX technology is based on a specific blend of urethane and acrylic polymers. This proprietary process provides a beautiful rich, low gloss, smooth finish that will last throughout the years.

Chroma VX, an exclusive technologically advanced formulation enhances weatherability and is compliant with the highest standards of AAMA.

Our versatile color system allows you to add any of our window colors (below) to your window's exterior, while leaving the interior finish a neutral white.
